**AAT News Service** 

HE government is ready to promote drone industry that has seen rapid growth in the last three years, said the Union Minister for Commerce & Industry, Piyush Goyal, while addressing the International Innovation Conclave organised by the PHD Chamber of Commerce & Industry (PHDCCI) in New Delhi.

Praising the development of technology and growth in the drone industry on the strength of innovation, Mr Goyal asserted that development of drone ecosystem and deploying them in villages across the nation aligns with the Prime Min-

ister's Namo Drone Didi initiative that will help empower women in the agriculture sector.

Technological progress in the drone industry will help combat erratic weather patterns and assist farmers in getting higher quality and higher quantity yields. The Production Linked Incentive (PLI) scheme for drones and drone components is a kickstarter for the sector to progress and should not be considered as a permanent subsidy scheme from the government, said the minister.

"In the third term of PM's administration we will work at triple the speed, ensure three times the result and hope to become the third largest econ-

• • •

omy in the world," he said.

Drones have the ability to contribute to the co-operative sector, self-help groups (SHGs) and to farmer producer organisations (FPOs) as a shared facility with the help of agri infra funds in delivering fertilisers and reducing wastage and expenses of the farmers. For financing and mentoring of the drone ecosystem, Small Industries Development Bank of India (SIDBI) can be roped in to promote the sector.

On the startup ecosystem, the minister said, 18 Initial Public Offerings (IPOs) have already been offered in the first half of 2024 and 17 IPOs were offered in 2023. Under the guidance of Mr Modi, the country has seen windfall investments from foreign investors and there has been a massive push for infrastructure.

Easing of regulations and compliance burden on startups along with enabling ease of doing business (EoDB) have been the primary focus of the government.

The infrastructure growth has a multiplier effect on the economy that leads to demand for goods and services and increases consumption in the country. The PM's infra push has enabled growth of industry and employment generation that has put the nation on a virtuous cycle of growth, added Mr Goyal.
