

A participant checking a product at an exhibition during the Dialogue to Action -National Summit on Vulnerable Road Users (VRUs) and Road Safety, in New Delhi. The summit addressed comprehensive safety solutions for country's most VRUs - not only pedestrians and cyclists, but also powered two-wheeler users, whose lives are at risk daily on roads, as well as broader road safety issues

## SAIL powers Zojila Tunnel with over 31K tonnes of steel

### Reinforces its role in nation building

**AAT News Service** 

HE Steel Authority of India (SAIL), India's largest steel-making Maharatna PSU, has emerged as the singlelargest steel supplier to the prestigious Zojila Tunnel

This project. ambitious, under-construction project is set to become country's longest road tunnel and Asia's longest bi-directional tunnel.

SAIL has been positioned as a crucial part-

ner to this strategic infrastructure initiative, having supplied over 31,000 tonnes of steel, including TMT rebars, structurals and plates. The company's continuous supply of steel to this project, as it progresses towards its 2027 completion, under-

scores its unwavering commitment. This contribution to the Zojila Tunnel further solidifies SAIL's long-standing legacy of nation-building. Mega projects like the Zojila Tunnel consistently trust the reliability and strength of SAIL's steel, a testament to

the company's dedication to quality and its pivotal role in shaping India's future.

Strategically located at an altitude of 11,578 feet, it is being constructed in the challenging Himalayan terrain. Over 30 kms of tunnel will provide vital all-weather

connectivity between Srinagar and Leh, via Dras and Kargil. The tunnel is a crucial part of India's national infrastructure development, specifically the Srinagar-Kargil-Leh National Highway, and will significantly enhance civilian and military

> gion. This project is not only a strategic infrastructure asset but also represents a significant economic opportunity for

mobility in the re-

region. SAIL's contribution to the Zojila Tunnel adds to its broader

legacy of supporting India's most iconic infrastructure including the projects, Chenab Railway Bridge, Atal Tunnel, Bandra-Worli Sea Link, and the Dhola Sadiya and Bogibeel bridges.
